EDUCATION

Cornell University, College of Arts & Sciences, Ithaca, NY Anticipated Graduation May 2030
Intended Major: Computer Science + Linguistics

Scarsdale High School, Scarsdale, NY Sept 2021 – June 2026
GPA (Unweighted): 4.15/4.4 | ACT: 36 | PSAT: 1520 (National Merit Semifinalist)

- Relevant Coursework: AP Computer Science A (5), AT Computer Science, AT Calculus BC, AT Statistics, AT Physics, AP Physics 1 (5)
- Additional Coursework: AP Biology (5), AP Chemistry (5), AT Spanish Language, AT English, Linguistics, AP Chinese (5), AP US History (5), AT International Politics

TECHNICAL SKILLS

- Programming: Java, Python
- Design & Tools: Website Design, Graphic Design, Google Slides, PowerPoint
- Applied: Data Analysis, Scientific Writing, Systems & Framework Design
- Languages: English, Spanish, Mandarin (Proficient), American Sign Language (Intermediate)

TECHNICAL PROJECTS

Intergenerational Impacts — Mobile App Developer June 2022 – Present

- Designed and built an iOS and Android app to automate the weekly compilation and distribution of translated senior community activities, replacing a fully manual process for a Chinese-speaking senior community in Scarsdale
- Sourced, structured, and translated content pipelines (Chinese, English, Spanish) feeding into the app and an accompanying print brochure
- Recognized with the NY State Assembly Certificate of Merit for the project's community impact

Layered ASL Gloss (LAG): A Framework for Encoding ASL's Non-Manual Grammar 2024 – 2025

- Designed a structured notation system encoding ASL's non-manual grammar (facial expressions, spatial indexing) in an intuitive, music-score-like format — applying systems and framework design to a real accessibility problem in ASL instruction
- Authored a formal research paper accepted for publication in the Curieux Academic Journal; presented findings at the Linguistic League's Teen Academic Linguistics Conference (TALC)

RESEARCH EXPERIENCE

Summer Research Intern, Regeneron June – Aug 2024, 2025, 2026

- Conducted in-lab research on off-target effects of treatments in a breast cancer mouse model (2024)
- Investigated mechanisms of T-cell activity resulting from experimental treatments (2025)
- Preparing independent research for submission to the Regeneron Science Talent Search (Fall 2025)

LEADERSHIP & COMMUNITY SERVICE

Founder & President, Scarsdale High School Linguistics Club Feb 2024 – Present

- Lead weekly discussions on topics spanning writing systems, ASL, and number systems for an average of 10–20 members; prepared members for NACLO
- Organized a collaboration with CityMeals on Wheels, coordinating 143 multilingual cards (6 languages) for isolated NYC seniors

Volunteer Teacher-Helper, St. Joseph's School for the Deaf July 2025

- Communicated with and supervised 6th–8th grade students using ASL
- Taught origami and arts and crafts, and helped facilitate physical education activities

HONORS & AWARDS

- New York State Assembly Certificate of Merit (Oct 2025) — for community service work fostering cross-cultural connection
- NCTE Achievement Award in Writing, First Class (Feb 2025)
- National Spanish Exam — Premio de Oro, top 5% nationally (2023, 2024)

INTERESTS

- Skiing, Water Polo, Volleyball, Sketching, Magic, Photography, Travel
